

# HAWAIIAN PROGRESS.

The Line of the Land is established in Kitchener's.

HONOLULU, SEPT. 8, 1894.

THE Advertiser is furnishing fresh rumors and credits them to the royalists. The rumors and the matters alleged in them are equally untrue.

THERE are hardly any news from abroad. The reports from the seat of war are unreliable. The tariff law is being violently attacked by the Republican party and defended by the Democrats. Sugar is yet quoted at its last price. The papers are filled with reports of an alleged domestic trouble in the Vanderbilt family which, if true, concerns nobody except the parties involved.

## What a Difference!

A few days ago a California paper dispatch from New York stated that peaches were selling in that city at seven cents apiece. Yesterday street vendors in San Francisco were selling sound and luscious peaches at sixteen for a nickel, and choice Bartlett pears by the dozen for a similar amount. It makes a great deal of difference to the consumer of luxuries whether he lives on the Atlantic or Pacific seaboard.

In the Paradise of the Pacific fruits are nearly as expensive as in New York.

## LATEST NEWS.

### A POLITICAL TESTAMENT

London, Aug. 31.—The Comte de Paris is rapidly sinking. He has received the last sacrament of the Roman Catholic Church.

The papers quote much from the Count of Paris' last political letter, which he addressed to Baron Lambert. In view of his approaching death, they ascribe exceptional importance to the sentiments expressed in it.

Part of the letter is as follows: "France is beginning to yearn for a strong government to end the scandals and avert the dangers arising from the existing regime. Experience proves that she will never find such a government under republican form. Still the Royalists, while reserving a question of principle, must not allow themselves to be accused of systematic obstruction."

### RECORDS LOWERED.

London, Aug. 31.—The Cunard line steamer Campania, which sailed from New York Aug. 25th, arrived at Queenstown today, breaking the record for speed. She made the passage in 5 days 10 hours and 47 minutes. Heretofore the eastward record has been 5 days 12 hours and 7 minutes, made November, 1893, by the Campania.

New York, Aug. 31.—The Cunard liner Lucania, which sailed from Queenstown at 12:45 p.m. on Aug. 26th, passed in at Sandy Hook at 5:18 this afternoon. She has, therefore, beaten the record of the Campania, which, on Aug. 17th, had made the run in 5 days 9 hours and 29 minutes.

### ORIENTAL NEWS.

Paris, Aug. 31.—The Governor of Indo-China reports that on the night of the 27th, Chinese marauders murdered M. Challet, French Collector of Customs in Tonquin, and killed his wife and children. Troops pursued the outlaws, but failed to capture them. The French Government has demanded indemnity from the Government at Peking.

Hongkong, Aug. 31.—This city has been declared free from plague.

### KING OF THE TURF.

Port Wayne (Ind.), Aug. 31.—Mascot, Flying Jib and Nancy Hanks have been dethroned, and Robert J. stands today the king of harness horses. The great son of Hartford, driven by Ed Geers, today made the fastest mile ever paced in harness, lowering the world's record of 2:04 to 2:03.

## THE REPORTS.

Washington, Aug. 31.—Rear Admiral J. G. Walker, recently commanding the Pacific station, accompanied by Captain A. S. Baker—who was relieved several days ago of the command of the cruiser Philadelphia—reached this city this morning direct from San Francisco.

The Admiral came to the department late this afternoon and had an audience with the Secretary of the Navy. It is understood that the Admiral has already completed his report on his mission to Hawaii and will hand it to Secretary Herbert upon the latter's return from his present instruction trip along the Atlantic Coast.

### IN DANGER.

London, Aug. 30.—The Shanghai correspondent of the Central News says: There is an uneasy feeling in Tien-tsin owing to the attitude of the native troops. Foreigners are arming themselves as they fear an attack.

### SATOLLI WILL RETURN.

London, Aug. 30.—A dispatch from Rome says the report that Mgr. Satolli will return to Rome at the end of the year is confirmed. The Vatican will publish the result of his mission, which will show, as already stated, that the Pope is entirely satisfied with the work of Mgr. Satolli, and that his holiness considers the church questions in the United States settled.

### NO WORDS.

Washington, Aug. 30.—The State Department has received no advice from Minister Baker in reference to the arrest of two American citizens at Bluefields.

### A DISASTROUS FIRE.

Hongkong, Aug. 30.—There has been a disastrous fire among the vessels anchored in the Canton river. Hundreds of flour boats were consumed and 1000 natives who were aboard the vessels perished, either through fire or by drowning.

### NAVAL NEWS.

United States steamer Adams, recently went ashore on the rocks at St. Paul's island. From the reports of her injury, as received by the naval officers, it is safe to presume that the Adams will be put out of commission and consigned to "rotten row."

### ADJOURNED.

Washington, Aug. 28.—Congress has gone at last, and every one breathes a sigh of relief.

Washington, Aug. 28.—The galleries of the Senate were packed today with visitors. After several short resolutions, thanking Vice-President Stevenson and Senator Harris, President pro tem, were adopted the Senate was declared adjourned sine die at 2 p.m.

## JAPAN AND CHINA.

### Latest Reports from the Seat of War.

Shanghai, August 31. A Chee-Foo dispatch states that Japanese war ships conveying a number of transports, landed troops at Lian-tse Shan yesterday. These troops were marched at once upon Port Arthur, the Japanese war ships bombarding the forts at that place in the meantime. The object of the Japanese is to destroy the docks and forts at Port Arthur in order to prevent disabled Chinese vessels from sheltering there for repairs. The fight was in progress at the time the dispatch was sent.

Chinese junks from New Cheung report passing many corpses of Japanese soldiers at the mouth of the Tatung river. This is taken as confirmation of a reported Japanese defeat on the river.

London, Aug. 31. A dispatch to the Times from Shanghai says: A Tien-tsin dispatch from Chinese sources says that fourteen Japanese ships, with over 5000 troops on board, are attacking Port Arthur. The Chinese garrison, numbering 4000, and the Chinese fleet have been ordered to attack the Japanese.

native press has received confirmation of the reported battle between the Chinese and Japanese troops on August 13th. According to these reports 5000 Chinese troops of all arms attacked the Japanese forces detailed to guard the Ping Nang passes in Northwest Corea, and succeeded in driving the Japanese from their positions.

Washington, August 29. A dispatch was received at the Navy Department to-day from Commodore Carpenter at Nagasaki, Japan announcing his arrival at that port. He has just taken command of the Asiatic squadron and sailed on the Monocacy from Nagasaki to Chemulpo to join the Baltimore, which will be his flagship.

Shanghai, August 28. It is reported here that Japanese transports, escorted by war vessels, are landing troops to the northward of Taku, with the intention of marching upon Peking.

Another report says the Japanese have succeeded in landing 20,000 men on the banks of the Ya-Loo-Kiang river, separating Corea from China, and thus cut off the supplies of the large army which the Chinese have sent down the Korean peninsula.

Aden, August 28. The Japanese torpedo gunboat Tasuta, detained here by order of the British Foreign Office while on its way to Yokohama, was stopped under the foreign enlistment act, owing to the fact that her captain and crew were British subjects.

## Appreciated.

Mr. L. J. Levey, the popular auctioneer, was pleasantly surprised by receiving from Judge Brunson, a very handsome cane, in evidence of the satisfaction entertained by the judge in regard to the successful sale of his furniture by Mr. Levey. The prices at the auction supersede anything recorded here for many a year.

## Hawaiian Hardware Comp'y.

August 30, 1894.

The thousands and thousands of people who read the daily papers and get the news happenings from the four quarters of earth, do so with little thought of the expense attached to getting out a paper and the trials and tribulations of the editor and frequent loss of money to the owners. The difficulties which beset the paths of newspaper people vary according to locality; in the Northern States, where there are "nine months winter and three months very late fall," it frequently happens that the roads are blocked with snow, just about the time the paper supply is exhausted, so the editor has to fall back on his polished-surface book paper to get out his edition. In Vicksburg, Mississippi, away back in the sixties an entire stock of wall paper was used in getting out a weekly paper, newspaper was not obtainable.

In some places the people will demand a maximum of news, telegraphic and local at a minimum price, and then want to pay their subscription and advertising bills in wood or vegetables. But when Saturday night comes around the gentle and ungentle compositor rebels, when he is offered anything, but coin in payment for his services, and this accounts for the fact that half the editors in United States are troubled with insomnia. We have known compositors in country towns to actually refuse to live on a diet of roller composition and strike if the editor would not divide the contents of the paste pot.

In Honolulu, things are different; paper is manufactured in California, and the ocean never freezes so hard that the vessel can't run, so there is no delay there in getting a stock of paper; the "types" usually meet the business Managers on Saturday with a broad smile which they give in exchange for good gold coin, and the editors who do not wear search lights in their shirt fronts leave them off, because they do not wish to be mistaken for tourists by capitalists. The compositors, too, are of a better class than you will find in the Pacific Coast; they dress better, live better and are better citizens than you will find in other places, even at twelve and a half cent beer is not inducement enough for them to take on "jag."

If there is anything that will set off the appearance of a home, a good hanging lamp is the thing. We have a new stock of lamps that is so varied in styles and prices that we can suit the tastes and purses of everyone. The burners, which is really more important than the decorations, have been selected with a to securing the most powerful light with the least possible amount of heat. We offer these to the public at prices sufficiently low to induce more people to buy than we have lamps to sell.

Garden Hose is as much a necessity as a telephone. The long stretches of dry weather kills the grass unless it is irrigated and you cannot very well irrigate unless you have hose, the water supply is meagre but with a little convincing one can always get enough to keep the grass and plants alive.

Table Knives, Carvers, Spoons and Forks are cheaper than they have ever been before and we have a big stock of them. The Knives are the best made in the States and the Spoons and Forks the best quadruple plate. These will last as long as solid ware that costs four or five times as much. We keep always a full line of these goods and can supply any demand.

We neglected to mention when writing about Garden Hose that we have a quantity of the latest improved water sprinklers that we can sell very cheap and which are bound to give satisfaction, if for no other reason than they will not get out of order and very little force of water runs them.
